## **Prime Hydration Continues to Change the Game with New "Glowberry" Flavor**

Prime Adds New Flavor to Meet High Demands

By: Easton Smith

*Prime's New Glowberry Flavor*

Prime drinkers, your demands have been met! Prime has just announced it's adding a brand-new flavor to its Prime Hydration collection and it's their craziest one yet! The new flavor is called Glowberry, and its unique look matches its one-of-a-kind taste.

Prime's new eye-catching flavor will refuel your body with a sour apple berry taste. The new flavor has all the usual ingredients and dosages of the other Prime Hydration Drinks, filled with electrolytes for hydration, amino acids, and less than two grams of sugar.

Want even cooler news? As if the spooky, ghoulie, black and green look wasn't enough, the new Glowberry flavor will glow in the dark when "charged" in the sun. Don't believe it? I guess you'll have to grab a bottle and find out for yourself!

There will be three different bottles of Glowberry available: Regular, Limited Edition Rare, and Ultra Rare. Even Prime co-founder Logan Paul hasn't gotten Ultra Rare yet and seems to really want it. "If someone finds Ultra Rare Glowberry, I will buy it for \$1000. Message me if you find it," Paul states. A \$1000 offer from Logan Paul? Count me in!

*Prime Founders Logan Paul and KSI With the New Glowberry Flavor*

This new game changing flavor has launched in the US and UK. Glowberry is available as part of the Prime Hydration collection, as well as part of the Prime Hydration Sticks collection. Get yours today in stores or at [DrinkPrime.com](https://DrinkPrime.com)!
